

Playsafer™

ELEVATE+ TILE

A unitary surfacing solution featuring a fully colored, vibrant EPDM particulate that stays colorfast for years, and provides a clean, seamless look with an excellent fall protection.

key features:

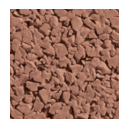

- Fully colored tiles
- 5 yrs warranty
- Highly shock absorbent
- Maintenance free
- Meets ASTM F-1951, ASTM F-1292, ASTM F-3012

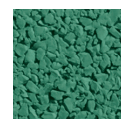

available in these standard colors:

Playsafer Elevate Plus Tile

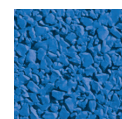

Playsafer rubber tiles are manufactured with EPDM for an extra vibrant, brightly colored, durable, and long-lasting color with a fade free guarantee. They offer exceptional safety ratings with unrivaled shock-absorption and underfoot comfort. Square boxed underside delivers ample support to absorb bumps and falls while providing cushioned comfort and superior traction for running, jumping, adventure-seeking kids. UV-proof tiles with water-permeable elements endure harsh outdoor conditions, persistent rain, and extreme sunlight.
